Mean Payment				\$ 53.63			
Median Payment				\$ 52.66			

2008 Payment Formula follows:

$$[(\text{Work RVU} \times \text{Budget Neutrality Adjustor (0.8806)} \times \text{Work GPCI}) + (\text{PE RVU} \times \text{PE GPCI}) + (\text{MP RVU} \times \text{MP GPCI})] \times \text{CF}$$

* Round the product of the two factors (i.e., the Work RVU and Budget Neutrality Adjustor) to two decimal places.

S. 2499, The Medicare, Medicaid & SCHIP Extension Act of 2007, extended the 1.0 floor on the Work GPCI and provided for a 0.5% increase in the conversion (CF) for six months, through June 30, 2008. Without congressional intervention by June 30, 2008, the 1.0 floor on the Work GPCI will end and the CF will decrease by 10.6% (from \$38.0870 to \$34.0682) effective July 1, 2008.

Data sorted in descending order by Payment, then by Work GPCI, then by PE GPCI.
